CA Lab Practice - Set 1

Gym Member Register

Your task

The web page and the Express server are ready. The database part is missing. Complete it using Mongoose.

- Write your answer in **database-question.js**. The comments in it tell you what to write.
- Do not change any other file.
- The answer is in **database-answer.js**. Try on your own first.

Steps

1. Open this project folder in VS Code and open a terminal in it.
2. Install the packages:

```
npm install
npm install mongoose
```

3. Make sure MongoDB is running, then add the sample data (see below).
4. Complete **database-question.js**.
5. Start the server:

```
node index.js
```

6. Open **http://localhost:3000** in your browser.

After every change to database-question.js, stop the server with Ctrl + C and start it again.

To run the answer instead, start the server with: **node index.js answer**

Database details

Database: gym

Collection: members

Fields: name (text), plan (text), city (text), visits (number)

Sample data

Open mongosh, paste these commands and press Enter. Paste them only once.

```
use gym
db.members.insertMany([
  { name: "Ajay", plan: "Basic", city: "Bengaluru", visits: 12 },
  { name: "Bhavna", plan: "Gold", city: "Mysuru", visits: 25 },
  { name: "Charan", plan: "Platinum", city: "Bengaluru", visits: 31 },
  { name: "Divya", plan: "Basic", city: "Mangaluru", visits: 8 },
  { name: "Esha", plan: "Gold", city: "Hubballi", visits: 19 },
  { name: "Gopal", plan: "Platinum", city: "Mysuru", visits: 27 },
  { name: "Hema", plan: "Basic", city: "Bengaluru", visits: 22 },
  { name: "Jayant", plan: "Gold", city: "Mangaluru", visits: 14 },
  { name: "Kiran", plan: "Platinum", city: "Hubballi", visits: 35 },
  { name: "Leela", plan: "Basic", city: "Mysuru", visits: 6 },
  { name: "Mohan", plan: "Gold", city: "Bengaluru", visits: 28 },
  { name: "Nisha", plan: "Platinum", city: "Mangaluru", visits: 17 }
])
```

Expected output

1. Terminal. Run node index.js.

Expected: Connected to MongoDB, then Server running at http://localhost:3000

2. Show all. Click "Show All Members".

Expected: 12 members.

3. Search. Choose Gold and click Search.

Expected: 4 members: Bhavna, Esha, Jayant, Mohan.

4. Filter. Type 25 in "Visits at least" and click Filter.

Expected: 5 members: Bhavna, Charan, Gopal, Kiran, Mohan.

5. Top 3 Visitors. Click "Top 3 Visitors".

Expected: Kiran (35), Charan (31), Mohan (28), in this order.

6. Add Member. Fill the form with Name: your own name, Plan: Basic, City: Bengaluru, Visits: 10. Click "Add Member".

Expected: The message "Member saved" appears and the list shows 13 members, including your name.
